Is this is where I remind you that modern forensic reconstructions support the single-gunner theory?

Is this conversation grounds for workplace harassment? Not my half of it, of course.

Hello! I wrote an article series on it. I can show you my interview files.

Seriously. That particular conspiracy theory is the result of baselines trying to get all Chazzian with the pattern-matching, and finding the patterns that only seem to exist. (Was that suitably cryptic? I think that was suitably cryptic. And if not, maybe it'll feed the beast.)

People brains \*like\* conspiracies. They're sexy. If there's anything I learned as the best little freckle-faced boy hostage on the block, it's that there's a fine line between that word we don't believe in and enemy action.

Conspiracies are fun. Be ever suspicious of the explanation that is *fun*.
